AI does the reading. You make the calls – always.

Purpose

An indexed list of every source document available for the evaluation, compiled from the court file, jail, and hospital records before the evaluator's review begins. Each entry names the document, its date or date range, and its source, so the evaluator can confirm the file is complete before starting rather than discovering gaps mid-review.

- State Hospital medical record, 04/28/2026–07/16/2026
- State Hospital medication administration record, 04/28/2026–07/16/2026

Interviews

- Telehealth clinical interview with Mr. Corwin, 08/14/2026, approximately 55 minutes
- Collateral phone interview, jail mental-health staff, 08/12/2026

Documents are grouped by source rather than listed in one long block, and the count at the top is reconciled against the case

docket so a missing category is visible immediately, not discovered partway through the review.
