Review corrections

- '40% pred' — the unit was inferred from context as 'percent of predicted' and confirmed against the therapist's standard template.
- 'PT 2x/wk x8, HEP' — abbreviations expanded; the plan matches the scheduler log at p.118.
- Therapist signature read as 'R. Gomez'; confirmed against the facility license roster.
- Date '04/09/2025' was legible and confirmed against the appointment log.

The corrected fields flow into the chronology at p.112 with the same source citation; the original page remains the authority.
