

RECORD Q&A

Medical Record Q&A — Reyes, Camila A.

Twelve questions, answered from the record, every answer cited to source.

CASE OVERVIEW	
CASE NO.	MR-2026-0418
PATIENT	Reyes, Camila A.
DOB	04/18/1986
DATE OF LOSS / SERVICE	03/14/2025
MATTER TYPE	Personal injury — motor vehicle collision
PREPARED FOR	Mercer & Hale LLP
ATTORNEY	J. Alvarez, Esq.
PREPARED BY	S. Okafor, RN
DATE PREPARED	08/13/2026

AI does the reading. You make the calls — always.

Method: each answer is evidence-based — built only from the 1,836 unique pages in the file, with the supporting page cited inline. Answers were reviewed by a human analyst; no answer is inferred beyond the record. Items the record cannot support are flagged, not guessed.

#	QUESTION	ANSWER	BASIS	STATUS
1	What was the date and mechanism of injury?	Rear-end collision on 03/14/2025; Ms. Reyes was a restrained front-seat passenger. EMS transported her to St. Mary's Medical Center.	p.001 · p.012	VERIFIED
2	Did Ms. Reyes have prior lumbar treatment?	No treatment for lumbar complaints in the nine years before the collision. A 2016 lumbar strain resolved without ongoing care.	p.006	VERIFIED
3	What imaging was performed, and what did it show?	CT lumbar on 03/14/2025 (no fracture). MRI lumbar on 04/05/2025: 4.2 mm posterolateral disc herniation at L4-L5 with left L5 nerve-root contact.	p.012 · MRI.s3.s118	VERIFIED
4	What is the primary diagnosis?	L4-L5 disc herniation with left L5 radiculopathy, secondary to the 03/14/2025 collision; acute lumbar strain (resolved).	p.068 · p.268	VERIFIED
5	Is there a treatment gap in the file?	Yes — six weeks between the PCP orthopedic referral (03/24/2025) and the first physical therapy visit (04/09/2025). The authorization letter is dated 04/03/2025; no patient delay is documented.	p.056 · p.113 · p.112	FLAGGED
6	Who treated Ms. Reyes, and where?	Seven treating providers across seven facilities: St. Mary's Medical Center (ED), Lakeside Family Medicine, OrthoWest Spine, North Texas Pain & Spine, North Texas Neurology, Meridian Physical Therapy, and Independence IME Center. Imaging and neurodiagnostic services are listed separately.	providers list	VERIFIED
7	What medications were prescribed over time?	Hydrocodone/APAP and methocarbamol (03/2025), naproxen (03/2025), then duloxetine 30 mg titrated to 60 mg and lidocaine patch (12/2025 onward).	p.012 · p.048 · p.296	VERIFIED
8	What work restrictions apply?	Light duty through 03/31/2025; permanent restrictions from 02/12/2026: no lifting over 20 lb, no prolonged sitting over 45 minutes.	p.048 · p.322	VERIFIED
9	Do the treating providers and the IME agree?	Yes — treating orthopedics and the defense IME agree on the diagnosis, causation, 8% left lower extremity impairment, and permanent restrictions. No material conflicts.	p.348 · p.364	VERIFIED

#	QUESTION	ANSWER	BASIS	STATUS
10	What is the current functional status?	Pain 3-4/10 at baseline with activity-related flares; lumbar flexion 70% of predicted; no surgery planned; MMI reached 06/10/2026.	p.364	VERIFIED
11	What future care is recommended?	Annual orthopedic follow-up, PRN epidural steroid injections, maintenance duloxetine. Five-year cost estimate: \$12,000-18,000.	p.334 · p.364	VERIFIED
12	Are any records missing?	Yes — seven items, including the original EMS PCR, ED nursing flow sheet, full MRI series 4, PT notes for sessions 5-6, and the pharmacy dispensing ledger. See the missing-records request list.	missing-reco rds list	FLAGGED

Ten of twelve answers are fully supported; two are flagged: the treatment-gap question (documented, cause established) and the missing-records question (see the request list).
